***TLC Studios Coming Soon to Dedham Square***

*Creativity and Innovation Learning Center to Offer State-of-the Art Event & Presentation Space, Digital Video/Audio Studios & Maker Lab to Inspire Teachers and Students*

DEDHAM, MA - A new multimedia learning center for all ages is set to open its doors this fall just outside Boston serving teachers, students and families. An initiative of the non-profit **Reynolds Center for Teaching, Learning & Creativity (RC-TLC), TLC Studios** will include digital audio/video/animation production and live-streaming studios, a podcasting studio, AR/VR resources, an engineering design and fabrication Maker Lab, as well as state-of-the-art presentation space and professional development workshop space. The facility is being built out at 390 Washington Street in Dedham Square.

Led by New York Times best-selling author/illustrator **Peter H. Reynolds** and his twin brother **Paul Reynolds**, **TLC Studios** will provide educators with professional development programs focused on creativity, digital media, storytelling, and maker skills.

"We're thrilled to introduce **TLC Studios** as a space where educators can recharge their creative batteries and receive the support they need to nurture positive, purposeful creativity in their classrooms," said Paul Reynolds, co-founder and Executive Director of RC-TLC. "Creativity and innovation are essential skills for empowering students to become creative problem solvers and agents of positive change."

Peter H. Reynolds adds, "Thanks to the generosity of our supporters, we'll soon have a place where we can give teachers even more of the TLC they deserve, as well as the hands-on creativity and technology skills and inspiration to bring back to their students." RC-TLC has launched a [fundraising campaign](#) to help defray the considerable costs associated with the construction and launch of the center.

RC-TLC is a nonprofit organization dedicated to encouraging creativity and innovation in teaching and learning. Founded in 2011 by Paul and Peter H. Reynolds, the organization bridges the gaps between education, schools, research, philanthropy, and business to incubate, deploy, test, and share innovations in pedagogically progressive uses of educational technology.

More information about the **TLC Studios** plan and launch can be found on the Reynolds TLC website: <https://www.reynoldstlc.org/announcingtlcstudios>.

##

#### **About RC-TLC:**

The Reynolds Center for Teaching, Learning, and Creativity is a 501(c)(3) nonprofit organization that encourages creativity and innovation in teaching and learning. Founded in 2011 by creativity champions and award-winning authors, Paul and Peter H. Reynolds, RC-TLC is dedicated to ensuring that all learners develop the vision, confidence, knowledge and skills needed to move their own lives forward, and to use their talents, strengths and energy to move their communities and the world to a better place.

The Reynolds brothers and their teams at their Boston-based educational media firm **FableVision Studios** have been creating award-winning educational media and technology for over 30 years - partnering with best-in-class organizations such as **Jim Henson Productions, National Academy of Sciences, PBS Kids**, as well as other broadcasters, museums, universities, and researchers. The Reynolds' K12 education program & resource company **FableVision Learning**, based in Dedham, MA provides professional development support to foster creativity in the classroom, and will be helping support the programs offered at **TLC Studios**.

Paul Reynolds has also been teaching digital storytelling and studio/field production at Boston College for over two decades.
